Subject: AB116 testimony Nevada restaurant assc
Date: Monday, February 17, 2025 2:44:53 PM

You don't often get email from psaba@nvrestaurants.com. [Learn why this is important](#)

Good afternoon, Chair and Members of the Committee. For the record, my name is Peter Saba, and I am the Senior Manager of Government Affairs for the Nevada Restaurant Association. The Association strongly supports AB116.

Nevada's restaurant industry is a cornerstone of our economy, supporting thousands of jobs and serving communities across the state. However, the rise of unauthorized listings on food delivery apps—where restaurants are falsely represented without their knowledge or consent—has led to significant harm.

When a restaurant is listed on a platform without permission, it loses control over critical aspects of its operations, including pricing, food quality, and customer service. Customers may receive incorrect or outdated menu items, experience delays, or even receive improperly handled food—all of which damage the restaurant's reputation through no fault of its own.

AB116 establishes essential protections by requiring third-party food delivery services to obtain explicit permission before listing a restaurant on their platform. This legislation ensures transparency, protects consumer trust, and upholds the integrity of Nevada's restaurant industry.

The Nevada Restaurant Association urges this committee to support AB116 and stand with the hardworking restaurant owners and employees who deserve to control how their business is represented. Thank you for your time.
