Carson City, NV 89701

Re: Letter of Support, Assembly Bill 156

Dear Chair Torres-Fossett and Members of the Assembly Education Committee:

I am writing in support of AB156. A full-time school board would create a stronger foundation for decision-making, ensuring that those elected can fully engage in better oversight of the Clark County School District while allowing for a more diverse pool of potential candidates for the role. This bill will better allow CCSD to meet the needs of students, educators, and families and provide for greater accountability and transparency.

Nevada's Asian American and Pacific Islander community continues to grow, with many students enrolled in CCSD. Having a fully engaged school board is critical to addressing the unique challenges faced by our diverse student population and ensuring equitable access to quality education.

We encourage you to vote in favor of this bill.

Thank you,
Eric Jeng, Executive Director
One APIA Nevada
