RE: Support for SB196

Dear Vice Chair Doñate and members of the committee:

My name is Kevin Gern, and I am the Vice President of State Advocacy and Risk Management at the American Rental Association.

We have 93 member locations including small and large companies in Nevada.

Nevada is one of four states in the country that has not found some solution to the personal property tax assessment on heavy equipment. The current system of taxation is burdensome for the taxpayer and government and discourages capital investment in the state.

SB196 provides a simple, transparent, and business friendly solution to the challenges we face.

I would like to thank Majority Leader Cannizzaro for introducing this important measure and express our full support of SB196.

Sincerely,

A handwritten signature in black ink that reads "Kevin Gern".

Kevin Gern
Vice President, State Advocacy and Risk Management
American Rental Association
