

Support Testimony, SB182, Amber Falgout, Battle Born Progress, 3.6.25

Good afternoon Chair and members of the committee. My name is Amber Falgout and I am the Communications Director with Battle Born Progress. I am calling today to express our support for SB182. This bill ensures hospitals have enough staff so patients don't have to wait hours in an emergency or risk medical mistakes due to overworked doctors and nurses. Understaffed hospitals and large nurse-to-patient ratios put patients at risk. SB182 requires facilities to maintain safe staffing levels to ensure proper care. When hospitals don't have enough staff, patients are more likely to suffer from medical errors, infections, or delayed treatment. SB182 ensures that hospitals meet safe staffing levels to prevent these risks. We urge the committee to support this important measure, which seeks to improve the quality and safety of health care in Nevada. Thank you for your time. Have a good afternoon.
