In Nevada, brothel Prostitution was legalized in 1970.

Mustang Ranch becoming the first brothel legal in 10 of 17 counties within the state.

Nevada legalized Prostitution based off of:

Safety: Some believed that legal Prostitution is safer for sex workers.

Empowerment: Some believed that legal Prostitution is more empowering for sex workers.

Taxes: Some believe that legal Prostitution is acceptable because it is taxed.

Protection: Some believe that legalization means protection, and that because something is legal it can not be harmful.

If everything we're to be true, A.B. 209 would not have been proposed.

Women in ancient times were lower then second class citizens, a prostitute the worst thing a woman could be.

Knowledge is Power.
