Re: Testimony in Support for Senate Bill 250

Dear Chair Doñate and Members of the Committee:

American Civil Liberties Union of Nevada supports SB 250. This bill ensures that electronic health records belong to the patient, giving individuals full control over their medical information. By eliminating fees for accessing and forwarding records, SB 250 removes financial barriers to healthcare access and streamlines communication between providers, improving patient care.

We urge the committee to support SB 250.

Best,
