Re: Testimony in Support for Assembly Bill 338

Dear Chair Brown-May and Members of the Committee:

I am writing on behalf of Native Voters Alliance Nevada in support of AB338.

I know we can all agree on one thing: we want to take care of our elders and our loved ones. We want them to stay where they feel safest, surrounded by the love and care of family. But right now, families are left digging through outdated websites, drowning in red tape, and struggling to piece together resources just to figure out how to get the care their loved ones need. It shouldn't be this hard.

I know this because I've lived it. I've had to sift through confusing, outdated information, make endless phone calls, and hit dead ends—all while trying to make the best decision for my dad. When you're trying to get personal care services in the home for someone you love, every delay feels like a failure. Every unanswered question feels like a roadblock. And every bit of uncertainty adds more stress to an already overwhelming situation.

AB338 changes that. It ensures that families like mine—and so many others in Nevada—finally have a clear, accessible way to find the information they need, quickly and without frustration.

We urge your support.

A hui hou,
