Nevada Legislature – Committee Hearing Assembly Government Affairs

Members of the Committee

Good morning members of the committee, thank you for the opportunity to testify in support of AB98. My name is Paula Luna and I am deputy Director of Battle Born Progress. We enthusiastically support honoring Dolores Huerta with a day of observance.

It's a beautiful thing to celebrate the accomplishment of such an amazing woman and such an important fight for rights and freedoms. There are no words to express the pride, encouragement, and inspiration Dolores Huerta has been for me when I was a young Latina and even now.

Representation matters! Observing Dolores Huerta day will be an annual reminder to Nevadans, especially young Latine Nevadans, that "si se puede" "yes we can". We can; continue to persevere, continue to accomplish, and continue to succeed.

I urge the committee's support and thank you for your time.

Paula Luna

Deputy Director
