

Dear Committee Chair and Members:

On behalf of Americans for Prosperity in Nevada, I thank you for this opportunity to testify in favor of AB180, a bill that will provide substantial regulatory relief to entrepreneurs in the state of Nevada. By mandating that large counties and municipalities create a seamless licensing regime that will allow vendors to sell in various locations without having to apply for and pay for multiple licenses will help them access more economic opportunity while also ensuring that compliance with licensing is easily achieved.

AFP Nevada believes now is the time for our elected officials to come together, address these challenges with sound solutions like what AB180 licensing reform achieves, so that we can build a Nevada that empowers every individual to reach their full potential. With less burdensome and onerous regulations, both entrepreneurs running businesses and workers trying to earn a living for their families will be able to chase opportunity instead of permission. AB180 creates a one-stop process to secure licensing in their pursuit to earn income as sidewalk or mobile vendors across the state.

AFP Nevada applauds the bill sponsor, Assembly Rueben D'Silva for bringing this bill forward, and we urge you to please support AB 180, a transformative step that will no doubt, help entrepreneurs in pursuit of their American dream, secure a more robust license with more economic opportunities that will improve the lives of their families and communities.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ronnie Najarro'.
