

AB237 – Authorizes County Commissioners of any County to Create an Office of the Registrar of Voters

Dear Senate Legislative Operations and Elections Committee:

There is enough bipartisan concern about election integrity that I strongly recommend **OPPOSING AB237.**

The function of overseeing elections is the responsibility of the County Clerk in all counties, this is an elected position. To enable the County Commissioners for any county to create an office of unelected bureaucrats to oversee the election process would exacerbate citizen concerns.

This bill would expand government bureaucracy, add cost to our election processes, and do nothing to improve the election process.

This is an overreach by the Secretary of State and should be OPPOSED>

Please vote NO on AB247.

Respectfully,

Nancy Carlson

Reno Resident
