RE: Opposition to SB340

To Members of the Committee:

We are writing on behalf of the Henderson Chamber of Commerce (HCC) and our over 2,000 members, the majority of whom are small businesses, to express our opposition to SB340. We are concerned this bill introduces several critical issues that could undermine the checks and balances within our regulatory system.

SB340 would eliminate judicial review of proceedings challenging regulations. This creates an untenable violation of separation of powers and deprives meaningful and independent review of regulations.

The legislation would also grant significant discretion to the Chair of the Legislative Commission in determining whether to schedule a matter for review. This further erodes the protection of independent review of regulations. Judicial review serves as a safeguard to ensure fairness and prevent abuses of power. The elimination of such protections would erode an essential protection that ensures accountability in government actions.

While HCC understands the need for oversight and accountability in the regulatory process, this legislation presents several significant risks. For these reasons we urge you to oppose SB340.

Thank you,
