Re: Conceptual Amendment to SB157

Objective: Ensure that any increase to cannabis lot sizes be accompanied by a requirement that the Cannabis Compliance Board ("Board") develop and maintain a publicly accessible database to track, monitor, and notify consumers of cannabis or cannabis products that may pose a threat to public health or safety.

Conceptual Amendment:

Add a new Section 3 to the bill:

Sec. 3. Chapter 678B of NRS is hereby amended by adding thereto a new section to read as follows:

1. The Board shall develop and maintain an electronic database whereby the public may obtain information relating to testing conducted on cannabis and cannabis products by independent testing laboratories. Such database must:

(a) Contain the final results of all testing performed on cannabis or cannabis products by an independent testing laboratory;

(b) Delineate and flag any testing results that may pose a threat to public health or safety;

(c) Be presented in a format that is easily accessible to the public; and

(d) Contain information that is updated in a timely manner.
