Purpose/Intent of Proposed Conceptual Amendment

Clark County currently allows overnight work in certain areas of our jurisdiction, with work time permitted overnight or beginning earlier than 5:00 a.m. in certain areas. One such example is in areas around Las Vegas Boulevard between Russell and Sahara, where work is permitted to begin at 2:00 a.m. Our current code allows the Public Works Director to adjust construction start times when the general health, safety and wellbeing of the public is not adversely impacted.

This amendment would establish that construction times permitted overnight and/or prior to 2:00 a.m. are not preempted under AB478.

Amendment to AB478, Section 3.7:

1. If, on the effective date of this act, the board of county commissioners in a county whose population is 700,000 or more or the governing body of a city located in such a county has adopted an ordinance restricting the hours in which construction work may begin and the ordinance does not allow construction work more than 300 feet from a residential unit to begin at, but not earlier than, 5 a.m. during the period beginning on April 1 and ending on September 30, the ordinance is void and unenforceable, **except any ordinance allowing for work to be performed overnight or at an hour earlier than 5 a.m is not preempted.**
