

Izack Tenorio (SPELL OUT NAME) with Strategies 360 today representing Campaign Legal Center.

Campaign Legal Center is in support of AB 306 which would implement a needed improvement to the current Nevada statute around drop boxes. This legislation would ensure that more Nevadans had access to secure drop boxes during a critical juncture in the election period - the time between early voting and election day itself. Explicitly requiring a specific number of drop boxes in large jurisdictions ensures that voters will be confident there will be a place and a time for them to securely drop their mail ballots ahead of election day. Having mandatory drop boxes available to the public during this time may also help to offset the number of ballots arriving on, or after, election day and enable election officials to process mail ballots more efficiently during this busy time.
