

Thank you ^{vice} Chair,

Brian Wallace of the Nevada State Education Association, who has been the voice of Nevada educators for 125 years ~~in that role~~ for all 17 counties. NSEA does oppose AB 389.

NSEA thanks the sponsor for the amendment in removing the Commission on School Funding. The Commission must remain laser focused on their task ~~to~~ of ensuring Nevada will reach optimal funding. This can be achieved sooner rather than later by Passing Their Plan.

NSEA opposes AB 389 due to the change in class size reporting. Educational stakeholders use the current reporting method to monitor class sizes statewide. While the data may not change much from quarter to annually, it is important to our ~~the~~ educators that class size is at the forefront.
Classroom Class size & funding is what matters most to our members.

The Commission on School Funding has provided a solution to Nevada's continued issue of having the largest class sizes in the Nation. Pass the Plan.

Thank you.
