

EX 10

Dear Committee Chair and Members:

On behalf of Americans for Prosperity in Nevada, I thank you for this opportunity to testify in favor of SB 295, a bill that would make small business entrepreneurship in food services more attainable.

AFP Nevada believes government should focus on the most appropriate, least burdensome oversight of businesses to ensure that both entrepreneurs running businesses and workers trying to earn a living for their families are able to chase opportunity instead of permission. SB 295 removes state and local burdens for Nevadans trying to earn income as sidewalk food vendors across the state, which improves both job opportunities and consumer access in our great state.

In more onerously licensed states, entrepreneurship rates are lower among low-income residents, recidivism rates are higher for ex-offenders, and other unintended consequences such as increased crime rates occur due to decreased employment opportunities. Removing harmful business and occupational licensing barriers opens the doorway of opportunity that so many are looking for if given the chance.

Nevadans, deserve the dignity of personal choice as consumers and the ability to support their families with income earning opportunities without undue government burdens as they seek a living. We urge you to please support SB 295 to reduce harmful burdens in our cottage and street food industry where many of our fellow Nevadans have an opportunity to improve the lives of their families and communities.

Sincerely,

A handwritten signature in black ink, appearing to be 'Ronnie Najarro'.
